

# AMIRIT 75

75 mm quick coupling riser base for solid-set sprinkler systems

## Applications:

- A very efficient sprinkler base for solid-set sprinkler systems to enable quick and easy assembly & disassembly of PE pipes
- Suitable for all solid-set and semi-permanent sprinkler irrigation systems used for irrigating field crops, such as potatoes, carrots, peanuts and others.

## Systems Advantages

- The Amirit system has the same irrigation qualities as sprinkler stands, with the added flexibility and convenience.
- Riser with a wide water passage leading to the sprinkler – for larger flow rate and wider sprinkler spacing.
- High operation reliability
- Flexibility in lateral lengths
- Quick installation and collection of the equipment

## Structure and Features:

- Male/female Amirit coupling 75 mm x 1”.
- Light PE pipes of 5m or 6m lengths for easy move.
- Every PE pipe has male and female ends for quick and friendly assembling.
- Can be easily assembled and dismantled in the field.
- Reliable metal spring clips design for quick and easy assembling and dismantling. Saves installation time and labor.
- Can be used with wide range of sprinklers: 5022SDU, 5022SD, 6025SD, 427, super 10 and 5035SD.
- All parts available as spares.
